# Do these aircraft look the same?...

Constellation Lockheed C-121C Super

Airbus 350 XWB

*So..., why do we train  
and check our pilots in  
the same way?*

D  
C  
9

6	6.1*	Simulated asymmetric flight (This section may be combined with Sections 1 through 5.) Simulated engine failure during take-off (at a safe altitude unless carried out in an FFS or an FNPT II)	2.5	P---->	---->X				M					
	6.2*	Asymmetric approach around	2.5.1*	Take-offs with simulated engine failure: shortly after reaching V2		P---->	---->							
	6.3*	Asymmetric approach stop landing		(In aeroplanes which are not certificated as transport category or commuter category aeroplanes, the engine failure shall not be simulated until reaching a minimum height of 500 ft above the runway end. In aeroplanes having the same performance as a transport category aeroplane regarding take-off mass and density altitude, the instructor may simulate the engine failure shortly after reaching V2)										
	6.4	ATC liaison – compliance procedures			5.4.	Traffic pattern and landing without extended or with partly extended flaps and slats	P---->	---->						
					5.5.	Landing with critical engine simulated inoperative	P---->	---->			M			
			2.5.2*	between V1 and V2	5.6.	Landing with two engines inoperative: – aeroplanes with three engines: the centre engine and one outboard engine as far as practicable according to data of the AFM; and – aeroplanes with four engines: two engines at one side	P	X			M	FFS only (skill test only)		

# 15 January, 2009 Airbus-320-214 DUAL ENG FAILURE

- Experience crew
- 4<sup>th</sup> day together
- 3<sup>rd</sup> flight of the day
- Afternoon (day light)
- Good weather conditions
- Domestic flight

# Why and What is Evidence Based Training (EBT)

- Flight crew need to be trained for **today's operational risks**
  - Account for technological innovations and changing operational environment
  - More emphasis on non-technical human factors
  - Improve efficiency and effectiveness of training
- EBT enables a data-driven training system
  - Continuous standardised training data needed
  - 'Just culture' and data protection ensured

World wide  
DATA report

Regulator

Generic program:  
Training topics frequency  
A,B,C (6months,1,3 years).

Operator's EBT  
program  
(airline specific)

Operator

Operators'  
data (training,  
SMS etc)

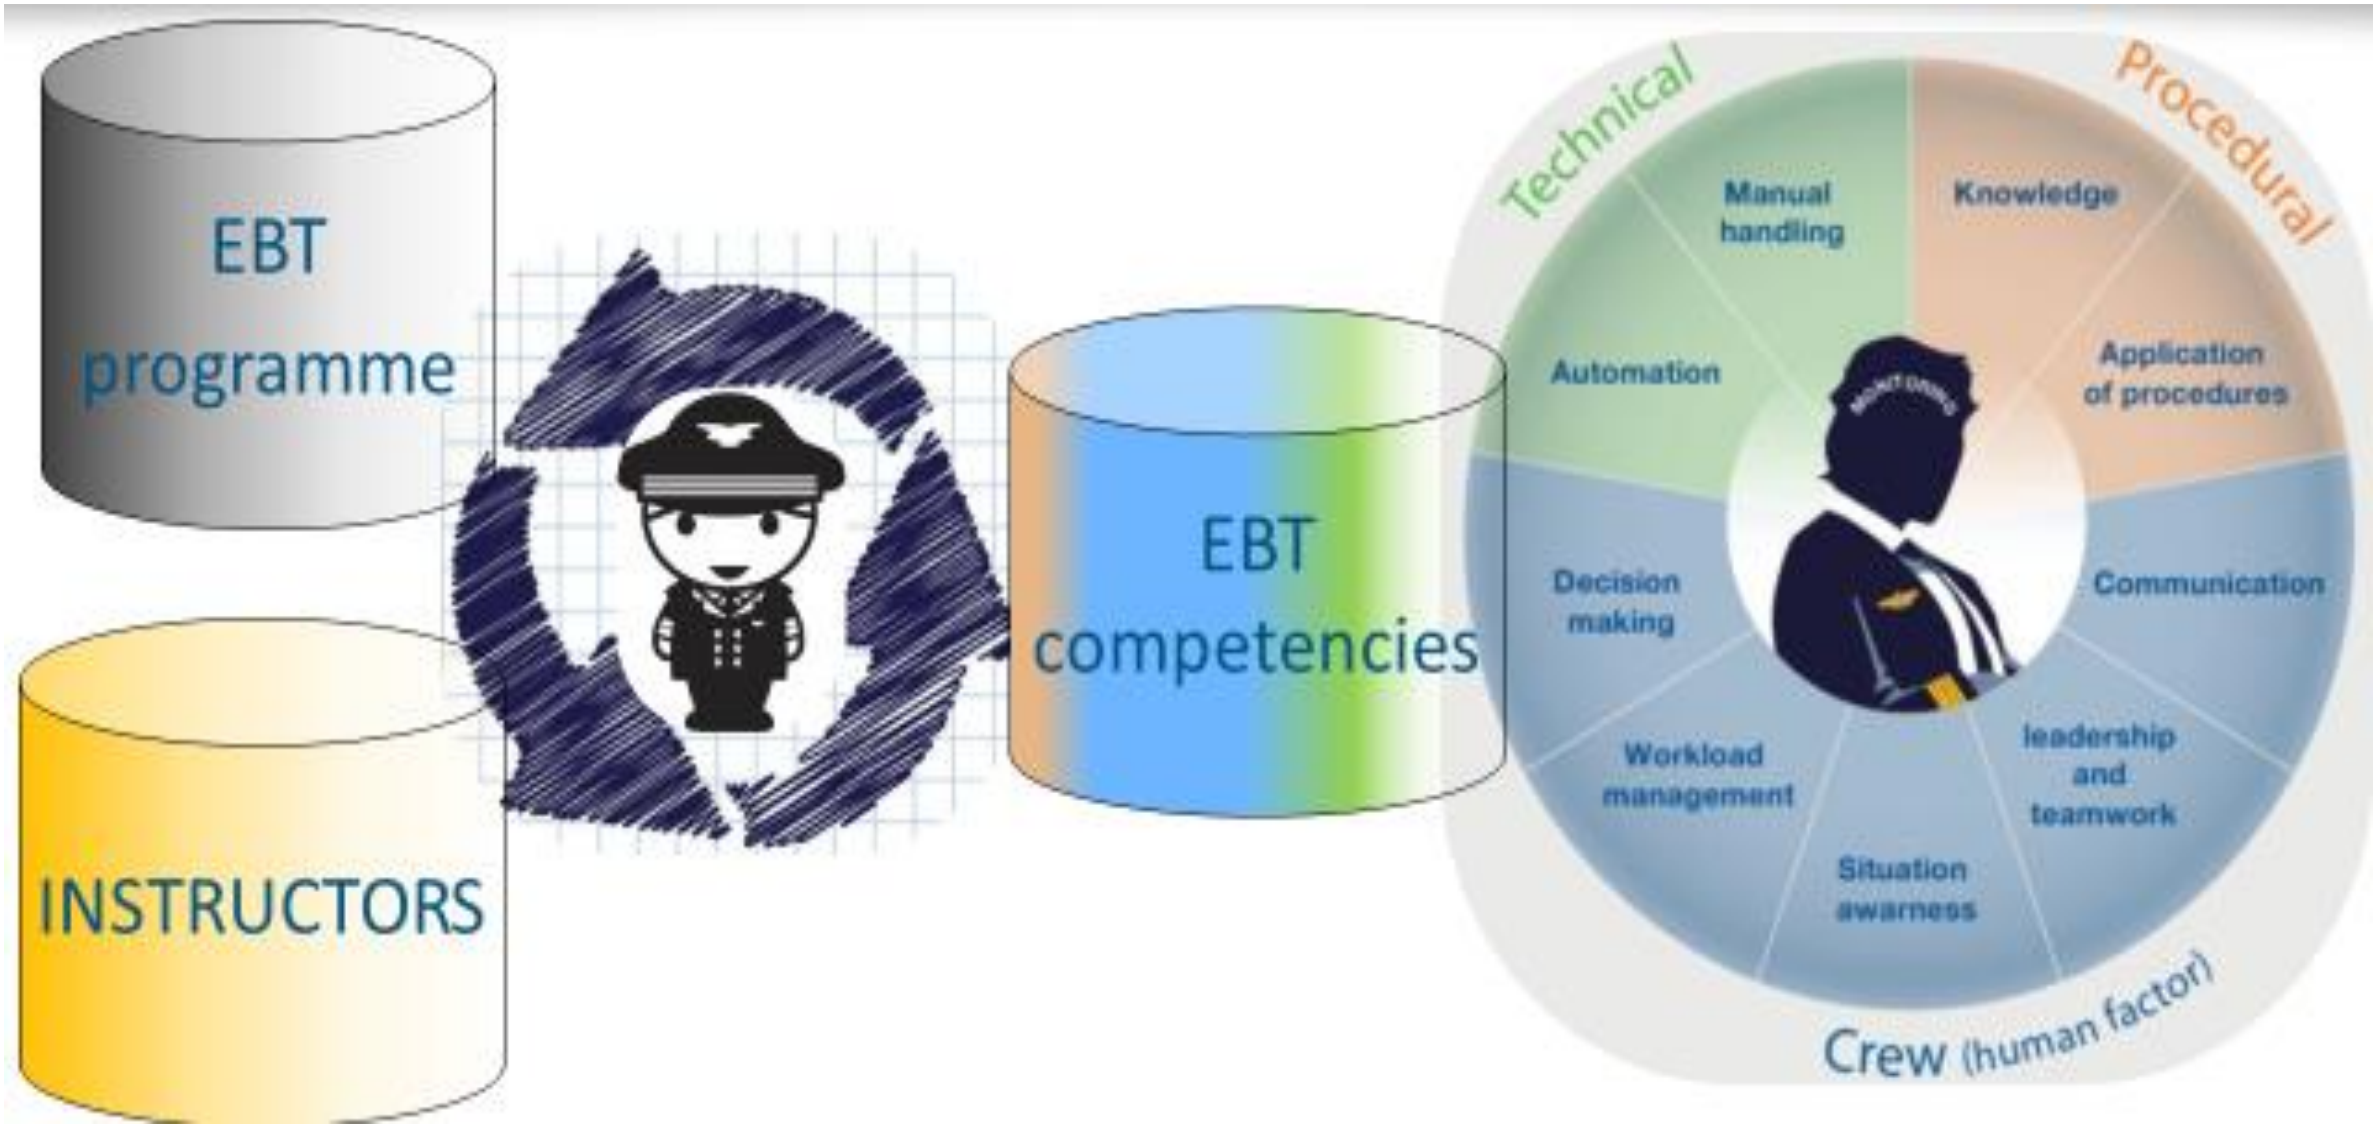

Evaluation  
FSTD session

instructor

Training  
adapted to a  
particular crew

# •Resilience Tool Kit

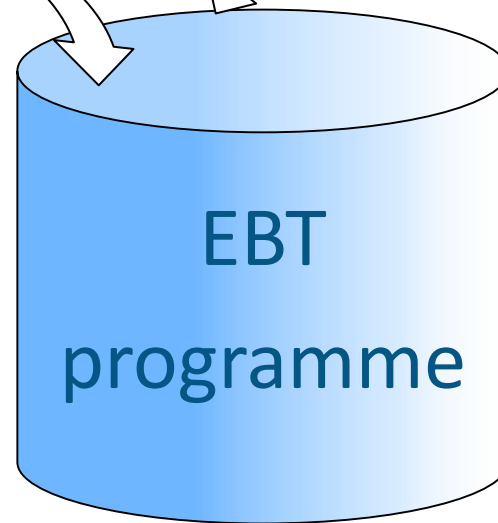

# Operator's EBT programme

- Training data:
  - 9 competencies
  - Grading 1 to 5
- by standardised instructors (concordance)

• Operational data: to contextualised the example scenario elements:

- SMS
- FDM...etc.

- Generic program: Training topics. ICAO Appendix II Doc9995 or EASA Appendix II to Part-ORO

- Follow the official documentation of your regulator (CAAs), ICAO, and EASA.
- The use of private consultants other than IATA or others public entities are not recommended.
- EBT is a worldwide global initiative that was created and developed by many public organisations. No single organisation or person can claim the original idea or ownership of EBT and its principles.
- EBT is long journey: 1-2 years of EBT principles and 2-3 of EBT mixed.

- **Primary documentation**

- EASA EBT checklist: <https://www.easa.europa.eu/sites/default/files/dfu/EBT%20Checklist%20V2.0.pdf>
- ED Decision 2015/027/R Implementation of evidence-based training (EBT) within the European regulatory framework <https://www.easa.europa.eu/document-library/agency-decisions/ed-decision-2015027r>. It includes:
  - Annex I to ED decision 2015/027/R: GM1 ORO.FC.230 (a); (b); (f). Recurrent training and checking to Part-ORO – Issue 2, Amendment 4; and
  - Explanatory Note to the ED Decision 2015/027/R.
- [EASA Notice of proposed of Amendment 2018-07\(B\): https://www.easa.europa.eu/sites/default/files/dfu/NPA%202018-07%28B%29.pdf](https://www.easa.europa.eu/sites/default/files/dfu/NPA%202018-07%28B%29.pdf)
- ICAO Doc 9995 AN/497 Manual of Evidence-based Training First Edition – 2013.
