EBAA Shifts Annual Safety Summit from Physical to Digital

01 December 2021, Brussels. Due to the increase in COVID-19 cases in Europe, the European Business Aviation Association (EBAA) today announced the shift of the Annual Safety Summit from a physical, to a virtual Summit on December 13-14th, keeping the original dates.

The association revealed a digital programming on its [website](#). The two-day lineup will feature an opening keynote by EASA Executive Director Patrick Ky and several sessions focusing on trends in Business aviation safety, ground-operations and threat-line auditing.

“This continues to be a very challenging situation, and the health and well-being of our attendees and speakers remains our highest priority.” Said **Robert Baltus, EBAA Chief Operations Officer**. *“We decided that, in the current epidemiological situation, we had to take a pro-active stance to showcase that safety remains our prime concern.”* He continued.

Attendees already registered will be automatically signed up for the virtual Safety Summit. The attendance is free of charge and tickets will be reimbursed by EBAA. Registrations are open and interested parties are welcomed to register on the event website:

About EBAA

The European Business Aviation Association (EBAA) is the leading organisation for operators of business aircraft in Europe. Our mission is to enable responsible, sustainable growth for business aviation, enhance connectivity and create opportunities. EBAA works to improve safety standards and share knowledge, to further positive regulation and to ease all aspects of closely tailored, flexible, point to point air transportation for individuals, governments, businesses and local communities in the most time-efficient way possible. Founded in 1977 and based in Brussels, EBAA represents +700 members companies, corporate operators, commercial operators, manufacturers, airports, fixed-based operators, and more, with a total fleet of +1,000 aircraft.
